ESSENTIAL SIZE GUIDE

BODY MEASUREMENT TIPS

- *When measuring yourself keep the tape firm but not tight*
- *Measure over undergarments for more accurate measurements*
- *If you don't have a measuring tape, use a piece of string and measure it using a ruler*

CHEST

Measure around the fullest part of your chest. This is the key measurement for shirts/blouses & dresses. Make sure the measuring tape sits horizontally across your body.

WAIST

Measure around the natural waistline which is the narrowest part of your waist. This is an important measurement for trousers/pants/shorts & skirts

HIP

Measure around the fullest part of the hips

Once you have your Body Measurements, you next need to determine the size of garment you require. Bob Stewart Size charts show Garment Measurements. These measurements include Garment Ease. Ease is the extra room that has been added to the garment so that it feels comfortable to wear and allows you to move.

We suggest adding the following amounts of Ease to your basic Body Measurements to determine the size of garment you require.

CHEST	<i>add 5cm - 10cm</i>
WAIST	<i>add 2cm - 4cm</i>
HIPS	<i>add 5cm - 10cm</i>
