

## INSTRUMENTAL MUSIC LESSON PROGRAM INFORMATION

### ABOUT

The Marist-Sion College Instrumental Music Lesson Program is an extra-curricular initiative which offers students an opportunity to develop their musical, social, and cognitive skills whilst learning a musical instrument. Students learning a musical instrument also have the opportunity to participate in College ensembles, liturgies, masses, concerts, productions, and events where they will gain valuable performance experience.

### VISION FOR LEARNING AND TEACHING

- We will build on our College vision of offering a rich, well-resourced, relevant, and diverse curriculum. Our teaching and learning will reflect the relevance of music in a changing world in supporting both physical and virtual learning environments.
- We will model collaborative leadership, providing opportunities and frameworks to assist the College community in using instruments and music to enhance learning.
- We will equip and support the College community with technology and skillsets that enhances the learning environment, ensuring learner-focused, flexible approaches that extend beyond the classroom.

### COMMITMENT

Our College Instrumental Music Lesson Program provides students with an opportunity to learn from our instrumental music instructors within the convenience of learning during the school day. To ensure your child can maximise their experience, our College requires both the student and parent/carer/guardian to fully commit to supporting their learning.

An **Instrumental Music Lesson Agreement** form is to be completed and returned by the student and guardian prior to commencing music lessons. Our College instrumental music instructors (IMIs) will provide semester reports in relation to student progress and performance.
